called, "flowers of sulphur," is a valuable remedial agent. Who doesn't remember the old fashioned sulphur and molasses given in the spring to purify the blood. And it was a valuable remedy too. But the form of sulphur makes it hard of assimilation makes it hard to get even a small quantity of the sulphur into the blood. The greater part of the flowers of sulphur taken into the part of the nowers of suspan taken into the stomach is undigested and passes out without doing any good whatever. The very little that is assimilated does great good considering its quantity. For this reason physicians and scientists have for years tried to find some way of bolding sulphur in liquid solution so that all of it could be assimlated and taken into the blood or when applied externally to sores, etc. be absorbed into the skin. Litteli's Liquid Sulphur accomplishes this with absolute perfection. It is assimilated perfectly and every particle of it gets into the blood with not one of the wonderful sulphur curative and medi-cinal properties changed or lessened. Applied externally it is rapidly and readily absorbed and actually brings the sulphur into contact with the germs of suppuration. mortification, decay or disease which it rapidly destroys. Littell's Liquid Sulphur stops itching instantly and permanently relieves all forms of skin complaint, eczema, erysipelas, pimples, running sores, tetter, ring worm, chaps, roughness, redness, or skin blotches. Laxative

The child of today is the parent of the future, and whether it grows up healthy and strong, or puny and weak, depends upon the intelligence of its night. arents, for most children are born nto the world healthy, but thousands become future weaklings between oirth and the age of ten, when the

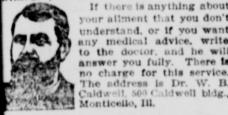

birth and the age of ten, when the parents are still in greatest control.

The prime cause of trouble is in the stomach. A baby that is digesting its food seldom cries and always looks cheerful; the little child whose stomach is good romps and plays and never whines; the growing child learns well at school and is eager for fun if its head is clear and its stomach light, and that means if it has no constipation.

The best and safest way to cure any irregularity of the stomach and bowels in children is by the use of Dr. Caldwell's Syrup Pepsin. This is a liquid laxative wonderful in its effect as Mrs. John W. Dunham, Apple Creek, O., Mrs. H. L. Cullam, Plainville, Ind., and numerous others can testify who give it to their children with extraordinary results.

A bottle only costs 50 cents or \$1 according to the size you want, and even one 50-cent bottle will do a wonderful amount of good in a family. It can be given to any member of the family in ansipation, sour stomach, indigestion, terpid liver, dyspepsia, heartburn, sick headache and similar digestive troubles. After La Grippe

"I had suffered several weeks with LaGrippe. Had pains in my head and eyes. It felt as though there was a heavy weight on the top of my head, until it seemed that my brain would burst. I was so nervous that I could not rest or sleep. When I dozed off I would awake with a sudden jerking of my whole body. Dr. Miles' Nervine, Heart Remedy and Nerve and Liver Pills cured me. A number of friends have since realized the same benefits.'

MRS. ALVIN H. LOCKS,

Princeton Presbytery.

Princeton Presbytery of the Presbyterian church, U S. A., met in Mayfield, Ky., Tuesday, Oct. 5th, 1909, at 7:30 p m. The opening sermon was preached by the retiring moderator, Rev R. H Anthony. Eight ordained ministers were present. There was quite a good representation from the congregations. Elder W. P. Black was elected moderator. Two ordained ministers were received and one granted a letter. Princeton Collegiate Insti stitute was transferred from Louisville Presbytery to Princeton Pres bytery. Miss Annie Florence Smith made a strong appeal in behalf of this excellent institute of learning, setting forth clearly that we have a corps of teachers unsurpassed in efficiency, that the instruction is the very best, that the dermitory is com fortable, attractive and sanitary, and that the entire management is ad mirable. The Pastor-Evangelist and Sunday School missionary made re ports of their work, which were received as highly satisfactory. The reports of the committees showed cire and thought in their prepara tion and presented the various interests of the church in a foreible manner. The discussions wer pointed and interesting. Rev R H. Anthony will be installed as pastor at Princeton, Kv., on Wednesday, Nov. 10th. The committee on installation is Revs. J. N. Andre. A. J. Thomson and Jas. F Price. Rev. Edward B. Landis will be in staffed as pastor at Paducah, Ky. at some date in Nov. or Dec. The committee is Rev. B. P. Fullerton, D. D., Rev. E. B. Kee and Rev. J F. Price. All the churches but one are supplied with preaching. There was the most perfect harmony in the Presbytery from beginning to end. The ladies had very fine missionary meetings, more auxiliaries being represented than ever before. Their public meeting on Wednesday evening was a marked success. They have raised \$553 for missions this year. The presbytery now has five candidates for the ministry, three of whom are in school at Lebanon, Teon. The next meeting of Presbytery will be held in Hopkinsville, April 5th to 7th, 1910. JAS. F. PRICE, Stated Clerk.
